1. The amendments to the specification are approved. The amendments to the claims are also approved and entered.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to anticipate or render obvious the claimed inventions relating to the optical recording media having the recited structure and recording layer compositions, particularly the high concentration of plasticizer or the low absorbance (high transmittance) of the recording layer. There is no direction to add this much plasticizer and the high transmittance recited in claims 21 run contrary to the general desire in the art to have higher absorbance to render the medium more sensitive to the light.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin J. Angebrandt whose telephone number is 571-272-1378. The examiner can normally be reached on Monday-Thursday and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
